### A RALEIGH.

We had the pleasure of being in Raleigh on Thursday and met most of the Republican members of the Legislature, and we are glad to say they are a very fine and able lot of representatives. We believe the interests of the people will be well looked after by them. We met Col. L. W. Humphrey, Mr. J. J. Mott, Col. I. J. Young, Thos. P. Devreux, Col. A W. Shaffer, E. E. Smith, Esq., and numerous others of the leading lights of the state, all looking well.

## Mr. C. P. LOCKEY.

This gentleman has sent us a communication in reply to the "Twenty Years Republican," from Robeson, and te "Colored Republican." published in our last lasne. Mr. Lockey gives in his communication very fully the reasons why he wrote his first letter to the Posr two weeks ago. But to cut off further discussion on a subject that can be of no benefit to the great liberty loving party of this state we have refused to publish it. We make this statement to do a friend simple justice. Mr. Lockey is a Republican and a good worker; he has his views and the manliness to express them, which we admire, and have always respected in

# SENATOR M, W. RANSOM.

The Democrats never did a wiser act than when they nominated Senator Matthew W. Ransom for re-election, for the third time, to the United States Senate. Senator Ransom is a Democrat, but he bas always been exceed ingly courteous toward bis political opponents, in his official intercourse. We served with Matt. Ransom in the Conederate army, and we know there was not a better lighter, why carried asbre or musket than be, yet m all of his official treatment of his subordinates and soldiers he was kind in the exreme, and in his social litterce or the Lieutenant. We believe it would publican to represent the state, but if we must have a Democrat then we pre-fer Matt. Ransom to any other in North

The quantity of fluid passed would at one time be small and at another quite profuse. Then for days I would be perfectly free from this desire and nothing seemed to be the matter; nevertheless my debility gradually increased. My cyclids were puffed out; my bowels were alternately torpid and too active, the urine would be clear some days, on others it would be of high color and deposit a brick-dust sediment, and at still others there would be a whitish appearance and a thin gream scum would rise to the top. The pains in my head, chest, back, joints, bowels and bones were horrible in the extreme. I went in vain from place to place and consulted the best medical authorities the country affords; I would have a chill one day and a burning fever the next. I suffered excruciatingly with a numbness of my feet and hauds, and at the base of the brain and between my shoulders; at times my limbs and body would bloat and physicians said I was suffering from the dropsy and could not recover. suffering from the dropsy and could not recover.
